
TESTIMONIALS

Advanced Leadership has been a life-changing experience that I wish would have been available years ago. It has encouraged me to examine all areas of my life, verbalize thoughts, affirm self, and then set attainable time-bound goals. It has been extremely enlightening to learn more about my true self in order to dream and plan for my future.

Ruth Ann Kintop, Weldall Mfg., Inc.

Being involved in Advanced Leadership has allowed me to realize my potential and find ways to get there - even if I am not sure what that potential fully is yet. Our facilitator, Jerry Fons, gave us the necessary tools to develop our leadership skills. We were encouraged to use forward thinking in creative and positive ways. He gave us specific and strategic goal planning tools that helped turn our dreams and goals into reality. I learned that it's not a matter of "I can't"; it's a matter of "I can.." and "I am..." It's the realization that we determine our own success.

I graduated from Leadership Waukesha in 2006 and felt it was very beneficial to my growth and development in my leadership role at ProHealth Care Information Services. When the opportunity to participate in Advanced Leadership came up I was very excited about participating. Jerry Fons is a great facilitator and since my role has changed within ProHealth Care this course has been just what I needed - it has helped me to continue to develop my skills and to feel more positive about my career path.

*Leaders aren't born, they are made.
And they are made just like anything else, through hard work,
And that's the price we'll have to pay
to achieve that goal, or any goal.
