

Fred Winchowky Village of Mukwonago

Question # 1 If elected, what would be your top three priorities?

- A) Continue to maintain what we already have! Repair sidewalks, repair and replace roadways and replace dead trees. Work to upgrade our parks and multi-use trails. Help upgrade and improve our library. Maintain quality of life.
- B) Continue to reach out and increase new residential areas. Work to find more commercial businesses, stores and restaurants that fit into our community. Work to expand TID #5 for more industrial base.
- C) Do what is necessary to keep moving forward. Progress, not retreating will help solve problems. Don't lose forward momentum, or forward actions. Don't let negative comments or negative statements ever cloud judgment.

Question # 2 How will you support economic growth in Waukesha County?

I will continue to do business retention meetings. I will reach out to area businesses large and small, as I have done since 2011. I will bring some of our staff such as the planner, administrator, building inspector, etc. and introduce them to the business owners. We will ask if there is anything we can do to help make their business more successful. For example we can help them thru the red tape that government can sometimes create. We can ask them if we are providing the services they feel they need. Also, we can partner them up with our High School for training programs if they so desire. If they are looking to expand their business, we can ask them what we can do to help. Lastly, we will follow up with the information and help they requested. We need to show them we are concerned about their business and we appreciate them being in our village.

Question # 3 Why do you want to lead your community?

I have lived and worked in the village for fifty years. I have witnessed the growth that has come during this time. I worked for the Police Department for thirty-nine years. I was involved with many parts of the planning and growth that occurred in the community. After retiring from police work, I was elected to be Village President. I have been Village President for the last eleven years. I have the experience and background to continue on into our community's future. The library, the parks, the festivals and most importantly the people who live and work here make this a great community to be a part of. I look forward to continuing to help our village grow and prosper in the years to come.
